## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-66 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 18, 32, 45, 48, 63, 66, with the allowable features being the conditional relationships pertaining to the adhesive layer resistivity were not found in the prior art. Therefore claims 1-66 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kitahara et al.(U.S. Patent No. 6,344,155), Chung(U.S. Patent

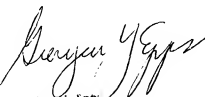

Art Unit: 2873

No. 6,136,128), Chung(U.S. Patent No. 6,428,650), are pertinent to the application since they pertain to electronic devices with adhesive with specific properties.
